Popeye

by Hathi Winston

Are you Olive Oyl to this Popeye? He could use a spinach-can full of love right about now...

This big, sweet boy, named Popeye, is a living testament of why dogs are so amazing. After years of suffering in neglect: kept in a cage, knee deep in filth, brown water to drink, with eyes matted shut, he was rescued from this torment. We discovered that he is friendly, calm, and good with other dogs and people!

We believe Popeye is a mastiff/boxer mix, about 8 years old, and he was recently neutered thanks to Paws In Need. The vet says due to his neglect he has chronic "dry eye" and requires daily eye medicine and to keep his ears clean. Popeye is easy to handle and is otherwise healthy.

Despite his awful past, Popeye is living happily in the moment and is open to finding a loving forever home where he will never know neglect again. Popeye is being fostered through Dog Dynasty in Pleasanton, but we are also looking for a foster home where he can thrive and show his true personality. Contact Dog Dynasty for more info or to arrange a "meet-and-greet" at 925-416-7877.

Harley

by Lisa Williams

Two year-old Harley almost had a very short life. Having swallowed a large toy causing a severe obstruction, her life was threatened unless surgery was done immediately. Not in a position to afford the cost of the entire procedure, Paws in Need was contacted to see if we could assist to save Harley's life. With cooperation from the owners, the veterinarian and staff plus PIN, we saved Harley! Here she is after surgery, on her

way back home to recover with her family. No more big toys for Harley!

Rascal

by Lisa Williams

This little rascal is everything his name says. He was found under a home in Danville, all alone, with scratches and wounds on his face. The homeowners heard him crying, located him, got a carrier and saved him. Nobody knows how he got separated from his mom and ended up under a house. A volunteer offered to try to find him a home since homeowner wasn't in the market for a pet. Paws in Need took care of his medical needs including a low cost neuter. We are happy to report Rascal quickly found a home. He is happy in his new Santa Cruz digs. Lucky boy, Rascal!

Li'l Bat

by Lisa Williams

You can tell how this little guy got his name. Look at those ears! Found at a lake abandoned and all alone, a Good Samaritan and current Paws in Need supporter found him, took him home and

Li'l Bat

adopted him! As soon as he was old enough she contacted us about utilizing our low cost neuter program. Li'l Bat is now neutered, safe and loves his new home.

Tigre

by Lisa Williams

Tigre

Little Tigre is one lucky kitten. Found by a great family all alone in the street, they took him in and tried to find his owner. They also contacted many animal groups to try and find him a forever home. When no one stepped up to claim him or help, they decided he'd found his forever home with them and contacted Paws in Need to utilize our low cost spay neuter program. Tigre is living a life filled with love and comfort with his 2 siblings, a bunny and a Chihuahua.

Alcatraz

by Lisa Williams

Alcatraz

Mischievous Alcatraz got himself in a little trouble when he chewed up a towel and swallowed some of it, creating a blockage. When it became clear emergency efforts were necessary, Paws in Need and Bishop Ranch Veterinary Clinic partnered to assist the family with much needed surgery for their pet. Young, otherwise healthy, neutered and with a great prognosis, we were both eager to help. Alcatraz is healing nicely and he and his family are very grateful.

Meet Our New Treasurer Gail Palin

by Carrie Weiss

Gail Palin

We'd like to take a moment to appreciate volunteer Gail Palin, who joined Paws in Need last year. As treasurer, Gail oversees the finance team that handles bookkeeping, accounts payable and revenue for our organization.

Accountant by day, Gail is a perfect fit for this role. She is excited to give back to a local organization that truly fits her strengths and passions. She was originally introduced to us by board member Lisa Williams, who was an old colleague of Gail's. And we're thankful for that!

Gail has always been involved in animal rescue, spending time at local shelters, dog walking and assisting with adoptions. Currently, she works with fearful cats and dogs at the Hayward shelter, getting them ready for their forever homes. An animal lover, like us all, Gail has four dogs, four cats, four rabbits, koi fish, a turtle and a 50-year old parrot keeping her company at home. There is never a dull moment around her house!

Is Your Dog Breed Covered by Your Insurance Policy?

by Karen Caldwell

I have been a client of AAA Northern California for 18 years and have had dogs most of that time - some were Pit Bull mixes, some not. No one at AAA ever asked if I had dogs or told me that some dog breeds like Pits, Rottweilers, and Chowswere no longer covered. I was completely taken aback. I increased my umbrella policy to make certain we are covered. BADRAP has a list of insurance providers who do not discriminate by dog breed: <http://www.badrap.org>.
